Whereas over 70 percent of women with ovarian cancer will not be diagnosed until ovarian cancer has spread beyond the ovary;

Whereas prompt diagnosis of ovarian cancer is crucial to effective treatment, with the chances of curing the disease before it has spread beyond the ovaries ranging from 85 to 90 percent, as compared to between 20 and 25 percent after the cancer has spread;

Whereas several easily identifiable factors, particularly a family history of ovarian cancer, can help determine how susceptible a woman is to developing the disease;

Whereas effective early testing is available to women who have a high risk of developing ovarian cancer;

Whereas heightened public awareness can make treatment of ovarian cancer more effective for women who are at-risk; and

Whereas the Senate, as an institution, and members of Congress, as individuals, are in unique positions to help raise awareness about the need for early diagnosis and treatment for ovarian cancer: Now, therefore, be it

agnosed with breast cancer, resulting in nearly 500,000 deaths;

Whereas at least 80 percent of the women who get breast cancer have no family history of the disease;

Whereas mammograms, when operated professionally at a certified facility, can provide safe screening and early detection of breast cancer in many women;

Whereas experts agree that mammography is the best method of early detection of breast cancer, and early detection is the key to saving lives;

Whereas mammograms can reveal the presence of small cancers up to 2 years or more before a regular clinical breast examination or breast self-examination, reducing mortality by more than 30 percent; and

Whereas the 5-year survival rate for localized breast cancer is over 96 percent: Now, therefore, be it

HONORING THE BICENTENNIAL OF MIDDLEBURY COLLEGE

Mr. LEAHY. Mr. President. I want to express my thanks and appreciation to my colleagues in the Senate for their support of Senate Resolution 355 congratulating Middlebury College on the successful completion of their first 200 years of higher education. I also want to thank my friend Senator HATCH and my colleagues on the Judiciary Committee for discharging this resolution in such a timely manner.

Later this fall, Middlebury College will enjoy the honor of celebrating its bicentennial. Middlebury College is one of the most respected liberal arts colleges in the nation and it was one of the first institutions of higher education in Vermont. In November 1800, the school first opened its doors for business to seven students and one professor in space at the local grammar school. Today, the school has more than two thousand students, almost two hundred professors, and a main campus of over 250 acres.

In recognition of 200 years of educating students from across this country and the world, the Middlebury College Bicentennial Planning Commission has designed Celebration 2000 to commemorate this milestone in Vermont's and the nation's educational history. The year-long bicentennial celebration honors the people and events that have made and continue to make Middlebury College a leader in higher education. Celebration 2000 features concerts, plays, and symposia, both on campus and at additional locations such as the New York Public Library, and the dedication of a new science building, Bicentennial Hall, with an exterior that resembles the Old Stone Row and the school's early architectural history. This year-long celebration will culminate later this fall during Founders' Week, a series of events on campus during the first week of November.

I am pleased this body has moved so quickly to commend and congratulate Middlebury College on the completion of its first two hundred years of educational excellence. I thank my colleagues for joining Senator JEFFORDS, the other cosponsors of this resolution and me in honoring the contributions of the school, its students and its alumni.
